WE CERTIFY THAT

Leandro Klaus Santos Lima

Successfully completed the JavaScript V - POO module
from the Formação Full Stack JavaScript course.

January 19, 2026

CERTIFICATION DETAILS

This document proves the completion and approval in the certification exam.

STUDENT

Leandro Klaus Santos Lima • leklaussl@gmail.com • CPF: 006.059.272-94

ASSESSMENT

JavaScript V - POO

WORKLOAD

5h

ATTEMPT

#1 • SUBMITTED • Score: 100%

DATE AND TIME

Started at: 1/19/2026 03:30 PM • Completed at: 1/19/2026 03:32 PM • Duration: 20 min

MINIMUM SCORE

75% points required

COURSE OVERVIEW

The Full Stack JavaScript Training transforms beginners into complete Full Stack JavaScript programmers, empowering them to work in the technology market with practical and up-to-date knowledge. Throughout the course, we cover everything from the fundamentals of programming to the development of web and mobile applications, using the most relevant technologies in the JavaScript ecosystem.

The course is divided into four main blocks: Fundamentals, Front-end, Back-end, and Projects, providing a progressive and integrated learning experience.

EXAM OVERVIEW

In this module, the student delved into Object-Oriented Programming (OOP) in JavaScript, understanding its fundamental principles — classes, instances, encapsulation, inheritance, and polymorphism. They also explored concepts such as association between objects, static attributes and methods, and the use of getters and setters for access control. Through exercises and practical projects, such as the JS Bookstore and the Digital Bank, they applied OOP in real contexts, developing modular, reusable systems that are closer to the logic of professional applications. In the end, they consolidated a comprehensive view of how to structure object-oriented code efficiently and scalably.
